

Residence Véronique

Baillonville (Belgique)

Residence Véronique recently moved from Barvaux to Baillonville into a brand new building with 17 additional rooms. The first thing that strikes you in the new building is the beautiful light.

Thanks to the abundant light, the bright colours of the Talo chairs (bright orange, light green and turquoise blue) are at their best. For the other Haelvoet furniture items (bed, bedside table, desk, Flat tables, (relax) chairs), the architect agreed with the client to use our dark wengé wood stain.

Architect: Atelier 47 (www.atelier47.be)

Scope of the project : 66 rooms

Date: Spring 2016
